

REDUCE EMISSIONS

Don't leave plant or light vehicles idling
Reduce the amount of diesel plant in any area
If it gets hot or hazy, turn off some plant
Ensure you wear your mask which filters harmful diesel particulate

SMALL AND HARMFUL

Crystalline silica particles are invisible to the naked eye

The small particle size means it is easily inhaled deep into the lungs

Respiratory protection is mandatory in all areas of the tunnel and spoil sheds

— **RCS Dust**
2.5 μm

• — **Respirable Dust**
10 μm

— **Airborne Dust**
100 μm

— **Table Salt**
500 μm

FIT FOR LIFE

Facial hair prevents your mask from sealing properly
The small particle size means particles can pass through any gaps and be inhaled
Make sure you always turn up for work clean shaven and fit your mask properly
