After a year of challenges the Rozelle Interchange Project took the opportunity to gift a thousand staff a \$50 voucher each to spend with local organisations during the holiday season.

The six organisations supported by the 2021 Rozelle Spends Local campaign were:

- Harding Miller Education Foundation
- White Bay Beer Company
- Willloebrae cheese
- Endota Spa
- Running Science
- Emilio's Specialty Butcher

The local businesses and charitable Foundation were benefited with more than \$50,000 in total, from vouchers and donations, plus promotion of their products and services.

The Rozelle Gives Local Campaign was a way to share, support and thank the local community and staff for their resilience after the difficult year that 2021 was, with lockdowns, suspension of construction and economic downturn.

Thank you to the Project's over 400 employees who elected for their voucher to be donated to the Harding Miller Foundation.

This generosity has laid the foundations for a student's bright future with a \$20,000 four-year high school scholarship starting in 2022.

The funding will benefit an academically talented, yet socio-economically disadvantaged young women.

This donation follows another \$20,000 scholarship donated to the charity by the Project in 2020.

The 2020 scholarship recipient, Annabella Granato, a year-nine student at Burwood Girls High School, shared how the funding has supported her.

"Financially, Covid has impacted my dad's ability to work however within my learning I have not been impacted," said Annabella.

Thank you to all the staff and local organisations for collaborating on the campaign allowing the Project to assist by providing gifts for staff and a financial boost to a number of local businesses.
